MHASC Literature report

It seems like just a couple weeks ago when we were last here. With being out of town and only a few weeks between area meetings, time got away from me. Therefore, I placed this month's order with less than ten business days to arrive, so as a result, I have not received it yet. I am sorry if I do not have some things people need. I am completely out of two of the I.P.s, but should have sufficient numbers of most other things.

Special thanks to Kyle and Vale, who helped me do a complete inventory of all items in the stockpile. The only items not counted by the piece are key tags. My committee will hopefully take care of this today. I took every box of literature out of the storage unit for this inventory, not realizing that one box belonged to the activities committee. When Lindsay gives me a list of the items that were in their box, I will remove those items from the inventory, and have a very accurate count of all that we have.

I believe all old back-orders will be filled after today. Hopefully I will not have too many new back-orders. I am trying to illuminate this problem without ordering too many excessive extras. At this point I have more booklets of "The Group" than I know what to do with. I would like to send one home with each GSR present today so I can replace these items with more of the I.P.s people really need. I will be sending a motion up accordingly. I also found many service manuals, so if committee chairs need them for their members, please let me know. I believe I have many of the items that H&I, PI and Outreach usually need, so these chairs should not be shy in their orders.

I have only received a couple of email orders at this point. And Chris has not told me he received any, so I assume people are not sending them. Please let me know if you sent an order and it has not been filled. Let's make sure you've got the right email address.

In service,

Scott H.
